

CHATAHOOCHEE WOODTURNERS

Chapter #112 of the American Association of Woodturners

Volume 10, Issue 4

April 2007

April Meeting, Tuesday April 10, 2007 Baxter's Belmont Shop

The President's Turn

April 2007

Gary Gardner's demo in March on making a jar for brush-on wood finishes such as Deft was excellent and very well received. As he noted during the demo, it covered both spindle and faceplate turning, two of the most popular types of woodturning. If you have made one of these jars since that meeting please plan to bring it our next meeting and tell us how it went.

We are postponing the beginners' basics class we had scheduled for Saturday, April 21st because of the dedication of the Willard Baxter Woodturning Studio at John C. Campbell Folk School which will be held on that day. We should have an alternate date in May available by meeting time next Tuesday.

The June meeting featuring Jimmy Clewes from England should be a very special event. Please note that the meeting day and date will be different from our normal June schedule. We will be meeting on Wednesday, June 20th at the regular time at Baxter's Belmont Shop. **Special Note:** Since we are expecting a strong turnout of Chattahoochee Woodturners members, we regret that we will not be able to open this meeting up to visitors from other clubs. We have limited space at Baxter's Shop and just cannot comfortably accommodate much more than the approximately 45-50 members we are expecting. We appreciate your understanding of our situation.

Hope to see you on Tuesday, April 10th for our regular meeting. Remember to bring items for the raffle and the instant gallery. We want to know what you've been working on lately.

Jerry

Featuring...

Bruce Bell of Australia began turning in 1973. Bruce now ranks among Australia's leading woodturners. He often refers to timber as "Natures Hidden Secrets." He strives to produce simple eye appealing forms from Australian native timbers, using only the best that nature has to offer.

"The challenge for woodturning is not unlike working with precious gems: the beauty is within the tree and it is a challenge to be able to show this off to its best advantage," he says.

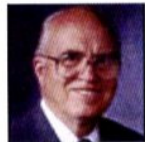

Soren Berger of New Zealand is a well-known woodturning artist who exhibits widely in New Zealand and the United States. As a teacher, demonstrator and exhibitor, Soren has every winter for the last decade been invited to the United States by the American Association of Woodturners and various clubs and symposiums, including six invited presentations at the Utah Woodturning Symposium.

Mike Mahoney of Utah has been a professional wood turner since 1994. His bowls are featured in galleries across the United States. Mike's work is sought after by collectors all over the world. Mike is often requested to demonstrate and teach for wood turner clubs, craft schools and symposia. He has traveled around the world to discuss and demonstrate his craft. He is considered an authority in woodturning.

Dale Nish of Utah is one of the foremost woodturners/writers in the world. His broad knowledge of woodturning, as well as nearly forty years teaching experience enables him to work with most of the tools and techniques commonly used in woodturning. His books, *Creative Woodturning*, *Artistic Woodturning*, *Master Woodturners* and *Woodturning with Ray Allen* have been well accepted worldwide.

Turning Day at Dogwood

Date/Time: June 9, 2007 8:00am - 5:00pm

*As you may or may not know, the annual **Turning Day** that is normally held at Don Russell's will change venues this year and be hosted by **THE DOGWOOD INSTITUTE SCHOOL OF FINE WOODWORKING** in Alpharetta, GA. This will give wood turners the opportunity to see the newly finished turning studio at the school that features 20 lathes and over 2,800 square feet of air conditioned space with 12 foot ceilings. This studio and woodworking school is located in Alpharetta on our horse farm. We have a new barn that has spacious turning facilities and the other 4,000 square foot barn is being renovated into the woodworking school. The view overlooks the pastures and is a picturesque environment in which to learn.*

Turning Day at Dogwood will feature many turners demonstrating their techniques including **Nick Cook, Don Russell, Wes Jones**, and several others who have been invited but not yet committed.

Barbeque will be the food of choice this year and served for a nominal fee. Once again, the home made ice cream will make an appearance.

The "**Tailgate Tool Swap & Sale**" will be highlighted and plenty of room for the trucks to display any tools, wood or just about anything for swap or sale. We encourage more of this activity this year as we have plenty of space.

A display area will be made available for those who wish to "**show and tell**" some of their projects. Please encourage your members to bring those treasures no matter what level of expertise.

We will also have an area designated for beginners who would like to know more about wood turning and several turners available to answer questions, demonstrate and allow potential turners try their hand on the mini-lathe. This will be a great area to display information about each of the clubs. So please bring information and brochures on your respective club or organization.

DIRECTIONS: Go on our website www.dogwoodwoodworking.com and on the sidebar "**DIRECTIONS**" will give the directions to our facility or use mapquest with address: 1640 Mid-Broadwell Rd., Alpharetta, GA 30004. If you do not have access to a computer, call and we can provide a map and directions.

Thank you for your help and look forward to seeing you at this event on June 9. Call if you have any questions. 770-751-9571 or 800-533-2440
